

Education

IIIT Naya Raipur

BTech

Nov 20 2020 - Jul 15 2024

GPA: 7.7/10

P.B.S bhadohi public school

Class-XII | CBSC

78.4

P.B.S bhadohi public school

Class-X | CBSC

96

Skills

React C++ Python SQL NodeJs

Experience

Vitara Enterprises

Data Analyst Intern

June 2022 - July 2022

- Developed and maintained dashboard for data visualizations using Power BI to support data-driven decision making processes.
- Simplified and automated tasks using Python, working with data experts to improve the system's overall efficiency.

Projects

Pneumonia prediction using image dataset

January 2023 - May 09 2023

- Developed a model using Convolutional neural network with help of image dataset which consisting of 5216 images of two classes Normal and pneumonia .
- Tech Stack: Machine learning, NumPy, Pandas, Matplotlib, Seaborn.

Stock Price Prediction Model

April 2024 - Aug 13 2024

- Developed a model using 3 different algorithm Linear regression , Artificial neural network , Convolutional neural network with help of an Stock price dataset consisting of 5 attributes.
- These Attributes are Open, close, low, high and volume.
- Tech Stack: Machine learning, NumPy, Pandas, Matplotlib, Seaborn.

Award & Achievements

NSS Volunteer | IIIT Naya Raipure

April 2024

- Visiting surrounding village school every Sunday and teaching basic science, mathematics and fundamentals of computer and awaring them for higher education and opportunities.
